

# GRAHAM BROWN BAND

*Outside Within* (Release Date: May 23, 2025)

**Graham Brown Band select press:**

**"The fact that [Hiwatt], his tenth album, is arguably his best yet testifies to his commitment."**

**Kerry Doole, Exclaim!**

**"Far from being a hindrance, the 'live' recording has given *Spirit* and *Soul* a spontaneity and a certain joie de vivre that more, sometimes overproduced albums can often lose."**

**Jim Finnie, Americana UK**

**"While the group is one of the tightest and consistently sharp local live acts, Brown's new album *Solo* is a change from the usual Neil Young-esque rock to stripped-back acoustic folk that hones in on the artist's clean playing and narrative songwriting."**

**Stuart Derdeyn, Vancouver Sun**

Although it's common for artists to improve with age, it's rare when they do it in a manner that seems to turn back the hands of time. That's precisely the feeling one gets when listening to *Outside Within*, the 14th album by Canadian singer/songwriter/guitarist Graham Brown.

Working once again with his longtime electric band—guitarist/keyboardist Rob Blackburn, bassist John Werner and drummer Mark Gruft—after taking an acoustic detour on 2023's aptly titled *Solo*, the Vancouver-based Brown cranked up his amp and honed his writing focus on *Outside Within*, a 12-song collection crackling with an inspiring energy fueled by Brown's guitar wizardry.

As on previous Graham Brown Band albums, it was all captured live in the studio, this time at Hipposonic in Vancouver where the bulk of *Outside Within* was remarkably laid down in a single Saturday afternoon.

Since the release of the 2011 album *Hiwatt*, the Graham Brown Band has made its mark as an acclaimed international touring attraction. Now with *Outside Within*, they are ready to tear up stages around the world once again.
